Subject: RECOMMENDATION: Traffic Signal Installation - Columbus Traffic Signal System Phase C

To: Mark Kelsey, Director

Department of Public Service

From: Alex Cofield, Capital Fiscal Manager

Date: March 23, 2012

Subject: Traffic Signal Installation – Columbus Traffic Signal System Phase C

The Department of Public Service solicited Requests for Proposals for the Traffic Signal Installation – Columbus Traffic Signal System Phase C.

The intent of this project is to provide the City of Columbus, Division of Planning and Operations, additional resources for engineering services in support of designing and system integration during the migration of the existing Columbus Traffic Signal System (CTSS) to an open architecture that can serve central Ohio stakeholders with system connectivity and interoperability. The desired outcome is to transition existing signalized intersections to the new central traffic control system being installed in the CTSS Phase B project and maximize the infrastructure from the CTSS Phase A project. This is the third in a series of projects based on the November 2005 Columbus Traffic Signal System Assessment and Strategic Plan. The limits of the project are within the Columbus metropolitan area, within multiple traffic signal jurisdictions. Plan development will include but not limited to fiber optic network design, wireless design, sub-surface utility engineering types A and B, traffic signal warrants, environmental resource document development, conduit design and investigation, power service designs, joint use pole coordination, and complying with the ODOT Traffic Engineering Manual Part 13.

The scope of work for the entire project will be included in the original contract. The contract amount will be \$1,100,000, funded from 2012 bonds. DPS will need to go back to Council for a planned modification at a later date to add additional funds to complete the scope of work.

The project was formally advertised on the Vendor Services web site from February 23, 2012, to March 22, 2012. The city received one (1) responses and it was deemed minimally compliant.

Per Deputy Director Jennifer Gallagher, a decision was made to not hold a formal evaluation meeting since only one proposal was received, the firm is minimally compliant, and the Department is familiar with the firm's work as they were awarded the contracts for phases A and B.

The responding firm was:

Subconsultant	BUSINESS ENTERPRISE STATUS	CONSULTANT/ CONTRACT COMPLIANCE NO.	ACTIVE	% OF WORK

The Evaluation Committee was to have included three (3) voting members from the Department of Public Service – Jennifer Gallagher, Hassan Zahran and Patti Austin. Non-voting members, but attendees, would have included a representative from EBOCO and Jennifer Atkinson.

Deputy Director Jennifer Gallagher would like to submit HNTB Ohio, Inc. for the Director’s review and recommendation.

Per City Code 329.14(h), please provide direction for proceeding on this project by replying to this e-mail. Two options include:

1. Approve of the Deputy Director’s recommendation, HNTB Ohio, Inc.
2. Reject the Deputy Director’s recommendations and re-advertise
