5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

The purpose of these projects is to provide a decorative street lighting system on East Main St, from S Gould Rd to Barnett Rd, and on Oak St, near the 18th St intersection. The projects will provide decorative fiberglass poles with LED post top luminaires on Oak St, and aluminum poles with decorative LED Teardrop luminaires on East Main St. The project will also remove existing HPS lighting, as requested by the residents of the areas.

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

The duration of the design phase for this project is approximately 12 months. This timeline includes minimal engineering services during the construction phase of the project. Part of the Engineer's scope of work is to provide record drawings after the construction of this project. Therefore the projected contract completion date is November 18, 2019.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

The goal of this project is to respond to public requests for a decorative underground street lighting system on East Main Street, and on Oak St. This will include removal of existing lighting, and installing new LED lighting.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Engineering Total \$66,090.86 East Main St Decorative Street Lighting - \$55,098.06
Oak Street Decorative Street Lighting - \$10,992.80
