

Eli Bohnert Application Profile:

Relevant experience:

I have experience working in the public health field improving the health of communities at the local and state level. Since high school, I have continuously served in some role of public service to ensure all views are heard. I was elected Student Government Vice President as a Freshman undergraduate student and worked to protect the needs of students despite budget cuts. I have worked with local, state, and federal officials to improve my community.

Bio:

My passion for public service comes from my family. My dad was a firefighter, and my mother was a public-school teacher. They taught me to use my skills in any way I can to improve people's lives. I pride myself on being willing to hear anyone out by working to find common ground. I do my research before I make a decision to ensure I have considered all factors involved.
