

**Information to be included in all Legislation authorizing  
Entering into Contracts:**

The names of all companies bidding, or submitting an RFP or RFSQ

The National Center for Water Quality Research at Heidelberg University - no bidding

The location by City and State of all companies bidding, or submitting an RFP or RFSQ

Tiffin, Ohio

The status, Majority, MBE or WBE, of all companies bidding or submitting an RFP or RFSQ

Private university; does not hold MBE/WBE status.

A full description of all work to be performed including a full description of work to be performed during  
any known phasing of the contract.

The purpose of the agreement is to continue operation of the water quality and pollutant monitoring station on the Scioto River at Chillicothe and calculate the separate contributions of point-source and nonpoint-source loads of phosphorus and other pollutants in the Scioto watershed upstream of the Chillicothe station. Work under the agreement also includes data uploads and calculation of annual loads, unit-area loads, flow- and time-weighted mean concentrations, and analysis of a subset of samples for dissolved organic carbon (DOC).

A narrative timeline for the contract including a beginning date, beginning and ending dates for known  
phases of the contract and a projected ending date.

The first phase of the agreement ran from January 1, 2014 through December 31, 2016. The second phase ran from January 1, 2017 through December 31, 2021. This third phase will run from January 1, 2022 through December 31, 2026, and will continue as an annual ongoing contract.

An estimate of the full estimated cost of the Contract including a separate estimate of any and all phases  
or proposed future contract modifications.

The cost estimate of the contract is \$45,000.00 for calendar year 2023 as a not-to-exceed amount. The total cost estimate for the five years of this phase will not exceed \$225,000.
