PROFESSIONAL EXPERIENCE

BATTELLE (Aug 2021 – Present)

Geoscientist Researcher/ D&I Embrace team leader.

- Involved in government and commercial projects exploring CO2 sequestration, EOR, and wellbore integrity. I work with seismic data, wireline logs, well records, and various other data sets.
- Responsible for reservoir modeling/analyses and uncertainty quantification to support CO2 sequestration projects in deep saline formations and depleted oil reservoirs.
- Geothermal – Hydrogen Energy group team leader

GEOKNOWLEDGE LLC (Aug 2020 – Present)

Director

- Responsible for consulting purposes for market research projects, predictive and prescriptive analytics for different industries
- Member of the Ohio Oil and Gas Education Program Evaluation Committee for the association's undergraduate and graduate student scholarship program
- Manage to solve complex problems by primarily leveraging the systems and tools currently available to the organization
- Mathematical, statistical and modelling concepts and research methods, including: learning curves and regressions.
- Awareness of technologies and challenged for developing carbon sequestration markets and supply chains.
- Civil projects, remodeling projects for commercial and residential customers.
