

STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A.** Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B.** Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

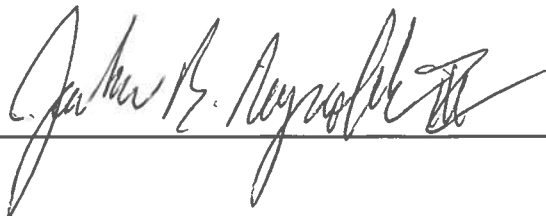

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Hardship Statement
325 Livingston LLC
325 East Livingston Avenue

The site is developed with two (2) single family homes constructed in the late 1800s. The site was zoned C-4 in 1928 and over the years the homes have housed a variety of different uses. The owner wants to legitimize the 1st and 2nd floors for residential use, therefore the request for the council variance to permit residential use on the first floor of each structure (a variance to CCC 3356.03 and CCC 3356.05 (C). This part of East Livingston Avenue, especially the west of the site are single family homes, built in the late 1800s, that are being used for a variety of commercial uses but retain the single family look and layout. The owner wants the available to legally rent out the two (2) homes each as a single family home, so only two dwellings on the lot without falling afoul of any code enforcement action. The request is simply to go back to the use of the structure when it was built in the late 1800s. Four (4) additional variances are requested to reflect the existing conditions that are currently located on the site. These variances will allow the owner/applicant to replace the existing structures and parking locations if the site were damaged or destroyed in the future. There are two (2) variances that pertain to the parking lot, CCC 3312.13 driveway width to be reduced from 20' to 17' and CCC 3312.21(D)(1) to reduce the landscape screening area from 4' to 0'. The last variance is to reduce the building setback from 25' to 0' to reflect the location of the existing building situated along the East Livingston Avenue right of way line as required in CCC 3356.11(A)(3).

- 3356.03 – to allow residential use in the C-4 district
- 3356.05(C) – to allow residential use on the first floor
- 3356.11(A)(3) – to allow a building setback at 0' from the right-of-way line
- 3312.13 – Driveway width to be reduced from 20' to 17'
- 3312.21(D)(1) – to reduce the parking lot screening area from 4' to 0'
