Attached is State of Ohio contract pricing for a sport utility vehicle compact hybrid.
This vehicle will replace 21154, 1999 Chevrolet Blazer.

The vehicle is a hybrid electric with 29 city, 27 highway EPA mileage ratings. This complies with the city's green fleet initiative.

The vehicle will be used by Bob Ellinger, Sewer Maintenance Manager. Bob is responsible for maintenance of the city's 5,000+ miles of sanitary and storm sewers. Bob is off frequently to inspect trash racks, floodwalls, sewer overflows, and other concerns. He must have 4wd which is standard on this contract. A four door 4wd vehicle is necessary as his work requires him to take managers, engineers, and contractors to the work sites.
