The basis of bearings in this description is based on GPS observations using the Ohio CORS Network (Ohio South Zone) to determine a grid bearing in the NAD83 (96CORS adjustment) state plane coordinate system. The Columbus, Mount Vernon, and McConnelssville CORS stations were used in determining the grid bearing, and establishing a bearing along the centerline of Joyce Avenue to be S 86°12'13"E (north of 17th Avenue).

All station and offset are referenced to the centerline of right-of-way and construction as filed with the City of Columbus and designated as "2768-DR E".
