ATTN: James Brown

SUBJECT: Hoffman Model 74107 Blower Repair-**Revision 1**
Serial # 0487008

James,

BissNuss Inc is pleased to offer this proposal for repair of the above referenced Hoffman blower. This repair work will be performed at a Gardner Denver certified facility and will have a 1 year factory warranty once the repairs are completed.

Work to include teardown and inspection of the blower, with a full report of the findings. The parts listed below are included in the quoted price.

Bearing housings
Bearings
Seals
Shaft
Shims
Spacers
Locknuts
Oilers
Gaskets

After teardown and inspection occurred, it has been determined that the following additional parts are required:

1 each inlet head
7 each impeller
1 each inlet bearing cap
1 each outlet bearing cap

The blower will be thoroughly cleaned (internally and externally) and painted. The complete rotating assembly will be dynamically balanced. Service will include a factory test run of a minimum of 6 hours to confirm bearing temperatures and vibration levels.

Total cost for this repair, which includes freight each way, is \$ 27,770.00

Estimated lead time for the parts is 8 weeks after receipt of order. The repair is estimated at 3 weeks after receipt of the parts.

This proposal is valid for 120 days.

Please let me know if you have any questions.

Sincerely,

Craig Chapman
BissNuss Inc.
