

Tedd Hardesty, Principal ASLA, LEED AP

Tedd's professional experience has included a variety of planning and design projects. He has been involved with the planning and design of a large number of residential communities, office and retail centers, educational facilities, and mixed-use developments. As a result of this diverse experience, he has developed a specialty of planning, visioning and design guidelines formulation for new growth areas, urban redevelopment zones and campus environments. Tedd is also a LEED Accredited Professional who brings his knowledge of sustainable site technologies to all of his project work.
