Parking

There are a total of 23 on-site parking spaces, nine (9) of which will be in attached garages in the multi-family building. The nine (9) garage spaces will be assigned to dwelling units. There are 13 surface parking spaces, including one (1) ADA van accessible space. The surface parking spaces shall be shared between the office and the multi-family use. Specific details of how the spaces will be shared and the hours of use for office and residential purposes shall be itemized on the final Site Compliance Plan.

The Site Plan may be slightly adjusted to reflect engineering, topographic, or other site data developed at the time final development and engineering plans are completed for site development. Any slight adjustment to the Site Plan shall be reviewed and may be approved by the Director of the Building and Zoning Services Department or his designee upon submission of the appropriate data regarding the proposed adjustment.

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

- A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of Public Streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance requested as detailed below:

STATEMENT OF HARDSHIP

40 West Third Avenue, Columbus, OH 43201

CV14-019

This council variance application is submitted in conjunction with application Z14-018, submitted to rezone the property to AR-O, Apartment Office District.

The site is located on the north side of West Third Avenue, 263 +/- feet west of North High Street. Applicant proposes to develop the property by removing the one story addition to the original structure, continue to use the original structure for office use and build a new 16 dwelling unit apartment building as depicted on the site plan. The site is presently two (2) tax parcels (010-023151, 010-003136), which will be combined. The office building and new multi-family building will be on the same tax parcel. The development project requires certain variances due to the urban environment of the project and applicant has a hardship with complying with these standards to reasonably develop the property. Applicant requests the following variances:

- 1) 3309.14(A), Height Districts, to permit a building height of 41 feet in an H-35 height district.
- 2) 3333.23(d), Minimum Side Yard Permitted, to reduce minimum side yard from 6.5 feet to 0.50 feet for the new apartment building along the east property line, along the east alley.
- 3) 3333.24, Rear Yard, to reduce rear yard area for the proposed apartment building from 25% of lot area to 0.80% of lot area.
- 4) 3333.26(a), Height District, to permit a building height of 41 feet in an H-35 height district.
- 5) 3312.09, Aisle, to reduce the aisle width/maneuvering from 20 feet to 18 feet for garage spaces 1-6, inclusive, and for the surface parking area, to permit an 18 foot aisle for 90 degree parking spaces.
- 6) 3312.13, Driveway, to reduce the width of the driveway from the north alley to the surface parking lot from 20 feet to 18 feet.
- 7) 3312.25, Maneuvering, to reduce the maneuvering area for 90 degree garage and surface parking spaces from 20 feet to 18 feet.
- 8) 3312.49, Minimum Numbers of Parking Spaces Required, to reduce parking from 36 spaces required for use of the original structure (3,400 +/- sq. ft.) for office uses (12 spaces) and 16 apartments @ 1.5 space/DU (24 spaces) to 22 parking spaces.
- 9) 3312.29, Parking Space, to reduce the width of certain parking spaces from nine (9) feet to 8.0 feet, as depicted on the site plan.
