

Exhibit A – IVR Technology and Services

Contractor agrees to provide the City with the technology and services as proposed in its revised response (dated January 31, 2014) to RFP SA005214. The total cost of service proposed for this contract term is \$115,236.33. Specific services are as follows:

Provide New I3 CIC Technology

Contractor agrees to provide the City, free of charge, with pre-sales consulting and engineering services in preparation for purchase of any new I3 CIC items in the most up to date I3 CIC Catalog. When the City has clarified requirements and identified needed items, the successful vendor will provide the City with a price quote for the needed items, reflecting the applicable discounts/markups shown in the following table. When the City issues a purchase order for the items, Contractor will fulfill the order and deliver items to the City. The price quote for new CIC technology to be purchased at this time is attached in the amount of \$6,024.98.

Provide Annually Renewable CIC Platform Support

Contractor will provide the City with annually renewable system maintenance and support on its I3 VoIP/IVR telephony platform. Contractor will provide Standard Support at 17% of the license cost of current items utilized by the City. Premier Support will be provided at 19% of the license cost of current items utilized by the City. Service will conform to the standards provided in section 7.4 of the revised proposal submitted in response to RFP SA005214. The price quote for Premier annual maintenance and support is attached in the amount of \$99,211.35.

Provide Professional Services

Contractor will provide the City with qualified professional services, conforming to the requirements itemized in section 3.2.2 of RFP SA005214, to support the installation of new CIC technology, and provide support service beyond that included in annual maintenance and support. The hourly rate, inclusive of all expenses, for such services is in the following table. The City will authorize the delivery of additional professional services. With such authorization, Contractor will invoice the City for hours of service provided, identifying the relevant labor category, hours provided, associated hourly rate and total cost. Contractor is authorized to deliver service in the following categories and charge at the hourly rates listed, not to exceed \$10,000.00 total.

Description	Unit Price
Engineering Services price per hour	\$190.00
Project Management Services price per hour	\$190.00
Training Services price per hour	\$190.00
Technical Support price per hour (business hours)	\$190.00
Technical Support price per hour (after hours)	\$285.00
