

Information to be included in all Legislation authorizing entering into a Contract:

1. **The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>City/State</u>	<u>Status</u>
ms consultants, inc.	34-6546916 – 3/7/16	Columbus, OH	MAJ
HDR Engineering, Inc.	47-0680568 – 8/13/16	Columbus, OH	MAJ
DLZ Ohio, Inc.	31-1268980 – 1/29/17	Columbus, OH	MBR
Stantec Consulting Services	11-2167170 – 9/10/17	Columbus, OH	MAJ
RA Consultants, LLC	20-0654077 – 5/21/17	Columbus, OH	MAJ
CT Consultants, Inc.	34-0792089 - inactive	Columbus, OH	MAJ

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Requests for Proposals (RFP's) were opened on July 10, 2015.

3. **List the ranking and order of all bidders.**

1. ms consultants, inc.
2. HDR Engineering, Inc.
3. DLZ Ohio, Inc.
4. Stantec Consulting Services, Inc.
5. RA Consultants, LLC
6. CT Consultants, Inc.

4. **Complete address, contact name, phone number, and e-mail address for the successful bidder only.**

ms consultants, inc.
2221 Schrock Road
Columbus, OH 43229
Andrew Fruehling, PE, pm, (614) 898-7100, afruehling@msconsultants.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

This project consists of the design of approximately 1,170 L.F. of 24-inch water main and 4,560 L.F. of 20-inch water main. It will include a new 24-inch water main to be installed along W. Mound Street between the location of the future Mound Street booster station and the terminus of an existing 24" water line located in Mound Street just west of the intersection of Harrisburg Pike/Central Avenue.

A new 20-inch water main will be installed along W. Mound Street beginning at the future Mound Street booster station location and going west to Columbian Avenue. The 20-inch water main will continue north in Columbian Avenue from Mound Street to Sullivant Avenue.

This project is located within the Hilltop community planning area and includes those streets mentioned above.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 14 months. Part of the consultant's scope of work is to provide record drawings after the construction of this project is completed, therefore, it is estimated that the end of this agreement will occur in April 2018.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The purpose of the project is to provide transmission main improvements to accommodate the increased pumping capacity associated with the new Mound District Water Booster Station Project. These improvements were recommended in the Division of Water's Distribution System Master Plan to meet projected future water demands in the area.

The Neighborhood Liaison will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The proposed agreement amount is \$229,880.05, including a 15% contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$229,880.05
Future Anticipated Needs	<u>\$ 0.00</u>
CONTRACT TOTAL	\$229,880.05
