5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.

The work consists of the repair of 14 access shafts to the Upper Scioto West Interceptor Sewer and other such work as may be necessary to complete the contract, in accordance with the plans [CC 17071] and specifications, and City of Columbus Construction and Material Specifications. The project is located within the Hayden Run planning area, with multiple sites and roughly follows Dublin Road from the dam at Griggs Reservoir (downstream end) to Rings Road (upstream end).

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

Work is to be completed within 270 calendar days after the effective date of the Notice to Proceed. Due to the nature of the contract, the completion date may be extended as funds remain.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

The shafts have been in service for 14 years and the site assessment and petrographic testing suggests that accelerated deterioration is occurring. Based on the rate of deterioration observed, it is anticipated that each shaft will degrade one level of severity every seven years. This project includes performing repair work to return each shaft to its original condition. Also, this work includes new lining on part-of / all-of the shaft, crack and penetrations fixes, base fixes, hatch rehabilitation and site improvements around the shaft including new access pads. In addition to correcting observed deterioration, repairs will help in slowing the rate of future deterioration.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

The bid amount and proposed award amount is \$ **1,968,783.73**, including a \$ **256,797.88** construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$1,968,783.73
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$1,968,783.73

9. Subconsultant information
