STATEMENT OF HARDSHIP

Application #: CV18-023

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.

B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are discovered after your application is approved, a new application will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

These are very minor variances and will not modify the essential character of the neighborhood, in fact there was a duplex on this property and there are several within the same block. This proposal will have minimal impact to the neighborhood. The bldg line variance is minimal, is on a side street, and other homes have similar setbacks on the street. The delivery of gov't services will not be affected by this proposal. The owner purchased the home aware of the zoning restrictions, but also with the knowledge that similar homes exist in the neighborhood.
