STATEMENT OF HARDSHIP

Application #: CV18-071

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.

B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are discovered after your application is approved, a new application will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

EXHIBIT B

Statement of Hardship

88 W. Frankfort Street, Columbus, OH 43206

Council Variance # CV18-071

The site is located at the northeast corner of W. Frankfort Street and Bank Street. It is in the Brewery District Commission and is zoned M, Manufacturing. The site is developed with a deteriorated single family dwelling. Applicant proposes to renovate the existing structure as two (2) dwelling units, as depicted on the site plan, floor plan and building elevations. The two (2) dwelling units are one (1) bedroom units.

Large areas of housing in the Brewery District are zoned M, Manufacturing. There have been many variances to permit new housing, changes of use and to conform existing residential uses. The site is located in the "Transitional Tier", as noted in the Brewery District Plan (1992) ("Plan"). The Plan recommends Frankfort Street as the southern border of high density redevelopment. The subject site is north of Frankfort Street and there have been residential redevelopment projects south of Frankfort Street since 1992. The Brewery District Plan supports residential uses and recognizes urban density.

Applicant has a hardship in that the only way to permit a two (2) dwelling unit building in the M, Manufacturing District is by variance. There is no zoning district to which the site could be rezoned and not also need variances. The Brewery District Plan speaks to rezoning portions of the Brewery District to encourage residential or mixed use development and to address the many non-conforming residential uses in the M District, but this should be addressed as an area rezoning initiated by the City of Columbus.

Applicant requests the following variances:

- 1). Section 3363.01, M, Manufacturing Districts, to permit two (2) dwelling units.
- 2). Section 3312.25, Maneuvering, to reduce maneuvering for three (3) 90 degree parking spaces from 20 feet to 10 feet and to permit maneuvering in part of the Frankfort Street parking setback, as depicted on the Site Plan.
- 3). Section 3312.49, Minimum Numbers of Parking Spaces Required, to reduce required parking from four (4) spaces to three (3) spaces for a two (2) dwelling unit building.
