STATEMENT OF HARDSHIP

Property Address: 5721 Cherry Bottom Road
Parcel ID: 111-298104, et al.
Property Owners: BZ Management Partners, et. al
Applicant: Oxford Circle LLC
Attorney: David Hodge
Underhill & Hodge LLC
8000 Walton Parkway, Suite 260
New Albany, Ohio 43054
david@uhlfirm.com
Date of Text: November 5, 2018

Applicant submits this Statement of Hardship in support of its companion Council Variance Application. The subject property consists of 13.3+/- acres located on the west side of Cherry Bottom Road, across from Blendon Woods Metro Park. The site was recently annexed from Blendon Township to the City of Columbus, effective April 2018, and is currently zoned R. This Council Variance application is being filed with a companion Rezoning Application requesting to rezone the property to AR-1.

The Site is bordered west by property which was annexed with the subject property and to remain zoned R, on the north by AR-12, on the east and across Cherry Bottom Road by Blendon Woods Metro Park, and on the south by Blendon Township property zoned R-8.

The Site is not situated within a Commercial Overlay, Planning Overlay, or Area Commission. The Site is situated within the boundary of the Northland Community Council and subject to the Northland Plan: Volume II. The Plan's General Use Guidelines provide that, for undeveloped land located in residential areas:

- zoning be used to protect residential neighborhoods from intrusion by commercial and manufacturing uses.
- zoning be used to encourage new development to be sensitive to density, buffering, traffic and circulation pattern, and architectural details of the surrounding area.
- all appropriate agencies be contacted in order to reserve adequate land for parks, recreation facilities, and schools in major rezoning areas.
- infill developments compatible with their surroundings be encouraged.

Applicant proposes the development of a multi-family residential apartment development at a density of approximately 18 dwelling units per acre. However, please note that the Applicant is in discussions with the City's Parks Department to donate property along Big Walnut Creek which was previously annexed with the subject property. This land along Big Walnut Creek has been long sought by the City's Parks Department to extend a trail along the creek. Were Applicant to keep this property and include it with this application, the density for the development would be approximately 10 units per acre.

Applicant is committing to the Site Plan submitted with this application. To deliver a development consistent with the Guidelines of the Plan, Applicant respectfully requests the following variances:

1. 3333.18(B) – Building Line – Cherry Bottom Road is a 4-2 Arterial with a 100-foot right-of way and the Code, therefore, requires a minimum building line of 50 feet from Cherry Bottom Road. Applicant requests a variance to decrease the building line to a minimum of 17 feet from Cherry Bottom Road. Please note that the building line shall effectively be 25 feet. However, this project proposes eight-foot balconies which have a foundation and therefore must be considered for the purpose of establishing a building line.

Applicant respectfully submits that the requested area variance is the result of unusual and practical difficulties and/or unusual hardships. The Applicant originally designed a development which did not require a building line variance. However, after working with the City's Planning Department, it was recommended to the Applicant that parking should be removed from Cherry Bottom Road frontage and relocate the westernmost building closer to Cherry Bottom Road. As a result, the development's design improved, and the Cherry Bottom Road streetscape is far less affected.

The Applicant's goal is to redevelop the site in a manner that is consistent with the land use plan's design principles. This unusual and practical difficulty, and unusual hardship in carrying out the zoning district provisions are conditions which warrant the approval of variances concurrent to a rezoning request. The requested variance is not substantial, nor will it cause substantial detriment to the neighborhood nor adjoining properties. The variance will not adversely affect the delivery of governmental services.
