Westerville Road Street Lighting Imp's, CIP 670862-100000

This project will design a new overhead street lighting system on the north side of Columbus. The consultant will determine the feasibility of utilizing the existing AEP poles for the new luminaire installation.

The community planning area is "35 – Northland" and includes Westerville Road between Bennington Avenue and Johnny Appleseed Court.

Smoky Row Road Street Lighting Improvements, CIP No. 670863-100000

This project will design a new underground street lighting system on the far northwest side of Columbus.

The community planning area is “31 – Far Northwest” and includes Smoky Row between Hard Road and Wimberly Court.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Specify the total term of the engineering agreements: **1 Year Term.**

Specify the estimated ending month and year of the agreements based on the total term. **November 26, 2019.**

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The projects will replace outdated street lighting which will result in an energy consumption savings for the City of Columbus. The addition of street lighting to the area may provide a sense of security to the residents, deter crime, and minimize potential impacts to City safety services.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$208,847.78, including a 10% contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.
