Columbus Public Health has been awarded grant funding from the Ohio Department of Health originating from the Centers for Disease Control for the Get Vaccinated Ohio (GVO) Program. This ordinance is needed to accept the funding of \$384,508.00 in grant monies for the Get Vaccinated Ohio (GVO) grant program for the period of July 1, 2023 through June 30, 2024. This ordinance also authorizes a subrecipient agreement with Franklin County Public Health for \$88,989.63, for the provision of immunization services to clients required to meet the deliverables of the grant for the period of July 1, 2023 through June 30, 2024.

The GVO program will enable Columbus Public Health to ensure that critical elements of vaccine provided and the vaccine delivery system are adequate; to establish and maintain a high level of awareness and demand for immunizations by parents, particularly racial/ethnic minority parents and other under-served population groups; and to accurately measure the ability of local vaccine providers to raise immunizations levels in children under the age of two toward the goal of 90% coverage.

The purpose of the subrecipient agreement is to partner with Franklin County Public Health to carry out the deliverables detailed in the Get Vaccinated Ohio (GVO) Program from the Ohio Department of Health. This agreement with Franklin County Public Health is for the period of July 1, 2023 through June 30, 2024. The subrecipient will assist CPH in fulfilling the deliverables of the grant to achieve and maintain 90% vaccination coverage levels for universally recommended childhood vaccines. Contracting with FCPH allows CPH the ability to carry out immunizations service delivery throughout Franklin County in areas other than the City of Columbus jurisdiction. Services to be provided include targeted immunization services to address immunization coverage disparities; conduct immunization provider education and assessments for practices throughout Franklin County in order to promote immunization best practices;

conduct School Immunization Assurance; recruit, enroll, and educate providers on the State Immunization Registry (ImpactSIIS); and carry out Perinatal Hepatitis B Case Identification and Follow-up. Franklin County Public Health is public health district organized pursuant to ORC Section 3709. This organization will service the populations that are outside of the City's jurisdiction to carry out the deliverables for the entirety of Franklin County.

This ordinance is submitted as an emergency to not delay vaccination services to clients and families, and to meet grant deliverables required by the grantor.

FISCAL IMPACT: The Get Vaccinated Ohio (GVO) grant program is entirely funded by the Ohio Department of Health and does not generate revenue or require a City match.
