### 1. BACKGROUND

The Ohio Department of Transportation (ODOT) is accepting applications to fund projects that address locations with a history of fatal or injury crashes where low-cost safety improvements have failed to solve the problem. The Highway Safety Improvement Program accepts formal safety applications twice a year, on March 31 and August 31; and it accepts abbreviated safety applications four times a year, on March 31, June 30, September 30, and December 31. These grants require a 10% local match.

This spring, ODOT added a second round of formal safety applications, with a deadline of March 31. For this additional funding round, the Department of Public Service submitted an application seeking funds to construct safety improvements at the intersection of Roberts Road at Frazell Road/Spindler Road.

This ordinance will authorize the Director of Public Service to execute project agreements for approved projects, to accept and expend grant funds, and to issue refunds, if necessary, after final accounting is performed or when notified by the Department of Public Service's Division of Design and Construction that a refund can be issued. Separate legislation authorizing the encumbrance and expenditure of capital funds to support the local share of anticipated project costs will be put forth at a later date as needed.

### 2. EXPECTED PROJECTS

The Department of Public Service submitted applications for the project listed below:

**538014-100000 - Intersection - Roberts Rd at Frazell Rd/Spindler Rd:** This project includes modifications to mitigate crashes at the closely spaced intersections of Frazell Road and Spindler Road with Roberts Road. The improvement project includes a double roundabout design as well as pedestrian and bicyclist safety improvements in the form of shared use path and sidewalk. This is a formal safety application, and the total project cost is approximately \$5,713,500.00.

### 3. FISCAL IMPACT

No financial participation is required at this time. Separate legislation authorizing the encumbrance and expenditure of capital funds to support the local share of anticipated project costs will be put forth at a later date as needed.
