1. BACKGROUND

This ordinance authorizes the Director of Public Utilities to enter into a construction contract with Elite Excavating Co. of Ohio, Inc., for public sanitary sewers for the Brooklyn/Cleveland HSTS Elimination project, CIP #650895-100003, in an amount up to \$2,056,854.20; to encumber funds with the Department of Public Service for construction administration and inspection services in an amount up to \$2,000.00 (for a total expenditure of \$2,058,854.20); and seeks City Council approval to increase the maximum amount of a Water Pollution Control Loan Fund loan that will be used to fund construction of this project.

This project will extend over 3,300 feet of sanitary sewer on Brooklyn Road to serve a developed area that is currently serviced by home treatment systems. This project will eliminate the home treatment systems due to failing systems and the potential ground water pollution hazard.

Work performed will be in the Northland planning area. Work will include construction of a new sanitary sewer that mostly extends along Brooklyn Road. This project is part of the Septic Tank Elimination Program (STEP).

Ordinance 3120-2022, passed 12/12/2022, authorized this project to be funded by a loan to be obtained through the Water Pollution Control Loan Fund (WPCLF) loan account in an amount not to exceed \$1,500,000.00. That ordinance estimated the loan amount to cover the construction cost of the Public Sanitary Sewers for the Brooklyn/Cleveland HSTS Elimination project would be \$1,500,000.00. The actual construction cost for this project per the bids received is \$2,056,854.20. This ordinance seeks City Council approval to increase the maximum loan amount that can be sought for this project to \$2,500,000.00 to cover the entire cost of construction and any additional administration costs that may be

associated with seeking and administering the loan.

The Community Area for this ordinance will be 35, Northland.

TIMELINE: All contract work is required to be completed in a manner acceptable to the City within 365 days from the date that a Notice To Proceed (NTP) is given by the City. The Notice To Proceed is anticipated to be issued in August 2023.

ESTIMATED COST OF PROJECT: The bid amount and proposed award amount is \$2,056,854.20, including a 20% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

7. FISCAL IMPACT

The construction portion of this project is anticipated to be financed with a loan from the Water Pollution Control Loan Fund (WPCLF), a program jointly administered by the Ohio EPA's Division of Environmental and Financial Assistance and the Ohio Water Development Authority (OWDA). City Council authorized this loan application and acceptance of funding via Ordinance 3120-2022, passed by Council on 12/12/22. The loan is expected to be approved in July, 2023. Funds will need to be certified against the Sanitary Sewer Reserve Fund, Fund 6102, to proceed with this project until the loan has been approved.

Funds will need to be appropriated within the Sanitary Sewer Reserve Fund, Fund 6102, transferred to the Sanitary Revolving Loan Fund, Fund 6111, and then appropriated in the Sanitary Revolving Loan Fund, Fund 6111, in order to fund this expenditure. This transaction is a temporary measure that is required until such time as the division is able to execute a loan with the WPCLF and reimburse the Sanitary Sewer Reserve Fund. An amendment to the 2023 Capital Improvement Budget is needed to reflect the loan funding for this project.

Funding in the amount of \$2,000.00 is appropriated and available within the Sanitary Bond Fund, Fund 6109, to pay the Department of Public Service to provide prevailing wage services for this project. An amendment to the 2023 Capital Improvement Budget is necessary to align budget authority with the proper project. Amendments to the 2023 Capital Improvement Budget are contingent upon approval of the 2023 Capital Improvement Budget.
