1. BACKGROUND

The Department of Public Service employs personnel that are engaged in traffic sign and signal installation, permanent pavement marking application, and roadway improvement design and construction. Project costs incurred by the operating fund are salaries, overhead, overtime, materials and other direct costs. These personnel and project expenses are budgeted within and paid from the division's operating fund, the Street Construction, Maintenance and Repair Fund. These costs can be capitalized. Doing so is consistent with earlier efforts by the Division to reimburse its operating fund when the operating fund incurred expenses more appropriate to capital improvement funding.

This ordinance authorizes the expenditure of \$1,785,227.74 or so much thereof as may be necessary for this purpose.

2. FISCAL IMPACT

Funding for this expenditure is budgeted and available within the Streets and Highways G.O. Bond Fund, no. 704. The 2011 revenue estimate for the Street Construction, Maintenance and Repair Fund reflects and assumes this revenue. C.I.B. amendments and funds transfers are necessary to move monies and authority to the appropriate projects.

3. EMERGENCY DESIGNATION

Emergency action is requested to allow the reimbursement of these operating expenses at the earliest possible time to make the Street Construction Maintenance Repair Fund whole.

To authorize the Director of Public Service to expend \$1,785,227.74 or so much thereof as may be necessary to reimburse the Street Construction, Maintenance and Repair Fund for traffic sign and signal installation, permanent pavement marking, roadway improvement design and construction expenses, salaries, overhead, overtime, materials and other direct

costs incurred by the Fund in connection with the Division of Planning and Operations' capital improvements program in 2011; to amend the 2011 C.I.B.; to authorize the transfer and expenditure of monies within the Streets and Highways G.O. Bond Fund for the Department of Public Service; and to declare an emergency. (\$1,785,227.74)

WHEREAS, the Department of Public Service employs personnel that are engaged in traffic sign and signal installation, permanent pavement marking activity, and roadway improvement design and construction activities and incurs various salary and material expenses within its operating fund associated with capital projects; and

WHEREAS, these costs can be capitalized; and

WHEREAS, the 2011 revenue estimate for the Street Construction, Maintenance and Repair Fund reflects and assumes this revenue; and

WHEREAS, it is necessary to amend the 2011 C.I.B. and transfer funds to the appropriate projects within the Streets and Highways G.O. Bonds Fund; and

WHEREAS, it is necessary to authorize this expenditure in order to provide adequate operating resources for the Division of Mobility Options, Division of Planning and Operations and Division of Design and Construction; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Planning and Operations and Division of Design and Construction in that this reimbursement should be authorized to provide reimbursement to the Street Construction Maintenance and Repair Fund at the earliest possible time and make this fund whole, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Service be and hereby is authorized to expend \$1,785,227.74 or so much thereof as may be necessary from The Streets and Highway G.O. Bonds Fund, 704, to reimburse the Street Construction, Maintenance and Repair Fund for traffic sign and signal installation, permanent pavement marking, roadway improvement design and construction expenses, salaries, overhead, overtime, materials and other direct cost expenses incurred in connection with the Division of Mobility Options, Dept-Div 59-10, Division of Planning and Operations, Dept.-Div., 59-11, and Division of Design and Construction 59-12, capital improvements program as follows.
