1. Background: This legislation authorizes the Director of Public Utilities to modify the professional engineering services agreement with Stantec Consulting Services, Inc. (formerly R.D. Zande and Associates, Inc.), for the Southerly Wastewater Treatment Plant Support Facilities project, Project 650344. The Stantec Consulting Services, Inc. modification amount requested under this ordinance is \$859,263.00; and this legislation also authorizes the appropriation, transfer and expenditure of \$859,263.00 from the Sewer System Reserve Fund 654 to the Water Pollution Control Loan Fund (WPCLF) 666, and to amend the 2009 Capital Improvements Budget. The contract total including this modification is \$4,136,044.00.

The proposed contract modification provides funding for technical services now needed during construction. The potential need for this work was foreseen and so stated in the original contract's legislation, and is therefore a planned continuation of the services originally included within the existing contract's scope of service. It is not deemed either feasible or reasonable to suspend work with the entity currently under contract and undertake continuation of these services with another procurement project. The cost of the modification is a continuation of the vendor's current pricing structure, as verified by City staff. The Division has determined that these services cannot be performed by City personnel at this time, and has planned for the procurement of these services on a routine basis.

The original contract with Stantec Consulting Services, Inc was to provide professional engineering services for the support facilities needed at the Southerly Wastewater Treatment Plant, and also provide support services for inspection and construction management personnel at both the Southerly and Jackson Pike Wastewater Treatment Plants.

1.1. Amount of additional funds to be expended: \$859,263.00

Original Contract	\$ 511,644.00
Modification No. 1	\$2,765,117.00
Proposed Modification No. 2	\$ 859,263.00
<u>Future Modification No. 3 (estimated 2012 funding)</u>	<u>\$ 786,000.00</u>
CURRENT PROPOSED TOTAL	\$4,922,044.00

1.2. Reasons additional goods/services could not be foreseen:

This Contract Modification No. 2 was planned and so stated in the original contract's legislation. It is a planned continuation of the services originally included within the existing contract's scope of service.

1.3. Reason other procurement processes are not used:

The funding provided by this contract modification is for continuation of the existing work of the contract. This work was planned for and anticipated within the original procurement, it is not reasonable or cost effective to undertake a new procurement to acquire these services.

1.4. How cost of modification was determined:

The cost of this contract modification is consistent with the direct labor, overhead, and profit rates established within the original proposal. The estimate of the quantity of labor required to complete the remaining scope of services is within the anticipated level of funding originally forecast.

2. MULTI-YEAR CONTRACT:

This ordinance will authorize the expenditure of \$ 859,263.00. The Department anticipates requesting additional appropriations to this contract for the 2012 fiscal year, through planned contract modifications duly authorized by City Council. Under the terms of this contract, the City has the right to contract for additional services to fulfill emergency capital improvements related needs subject to the approval of a contract modification by City Council. The rates schedules established within this contract will remain in force throughout the life of the contract.

3. Contract Compliance No.: 11-2167170| (MAJ) | Expiration Date: 01/07/2010

4. **Emergency Designation:** Emergency designation is not requested.

5. **FISCAL IMPACT:**

This ordinance authorizes the appropriation, transfer and expenditure of \$859,263.00 from the Sewer System Reserve Fund 654 to the Water Pollution Control Loan Fund 666 to fund this project expenditure, and to amend the 2009 Capital Improvements Budget. This transaction is a temporary measure that is required until such time as the Department is able to execute a WPCLF loan agreement with the Ohio EPA and the Ohio Water Development Authority (OWDA), and reimburse the Sewer System Reserve Fund. The loan award is tentatively scheduled for the November 19, 2009 OWDA board meeting.

To authorize the Director of Public Utilities to execute a planned contract modification to the professional engineering services agreement with Stantec Consulting Services, Inc. for the Southerly Wastewater Treatment Plant Support Facilities project; to authorize the appropriation, transfer, and expenditure of \$859,263.00 from the Sewer System Reserve Fund to the Ohio Water Pollution Control Loan Fund for the Division of Sewerage and Drainage, and to amend the 2009 Capital Improvements Budget. (\$859,263.00)
