### Rezoning Application Z04-020

**APPLICANT:** Preferred Real Estate Investments II, LLC; c/o Jill S. Tangeman, Atty.; 600 South High Street; Columbus, Ohio 43215.

**PROPOSED USE:** Multi-family residential development.

**DEVELOPMENT COMMISSION RECOMMENDATION:** Approval (6-0) on August 12, 2004.

**CITY DEPARTMENTS' RECOMMENDATION:** Disapproval. The proposed development is not consistent with the *Northland Plan I*, (2001) which recommends "redevelopment be limited to single-family or low density multi-family (2-4 family units) consistent with surrounding densities". The applicant is proposing six to eight-unit buildings for a total of 100 units at a density of 12.9 units per acre. One to four-unit buildings surround the site. While the proposed density would be appropriate farther south on Maple Canyon Avenue closer to the commercial developments along Dublin Granville Road, it is not consistent with the surrounding single and multi-family developments to the north and east and is inconsistent with the established zoning and development patterns

along this portion of Maple Canyon Avenue. The proposed density would set a precedent for higher densities along this stretch of Maple Canyon Avenue.

To rezone **6261 MAPLE CANYON AVENUE (43229)**, being 7.73± acres located on the west side of Maple Canyon Avenue, 99± feet north of Sprucefield Drive, **From:** R, Rural District **To:** L-ARLD, Limited Apartment Residential District. (Rezoning # Z04-020)

**WHEREAS**, application #Z04-020 is on file with the Building Services Division of the Department of Development requesting rezoning of 7.73± acres from R, Rural District, to L-ARLD, Limited Apartment Residential District; and

**WHEREAS**, the Development Commission recommends approval of said zoning change; and

**WHEREAS**, the City Departments recommend disapproval of said zoning change because the proposed development is not consistent with the *Northland Plan I*, (2001) which recommends "redevelopment be limited to single-family or low density multi-family (2-4 family units) consistent with surrounding densities". The applicant is proposing six to eight-unit buildings for a total of 100 units at a density of 12.9 units per acre. One to four-unit buildings surround the site. While the proposed density would be appropriate further south on Maple Canyon Avenue closer to the commercial developments along Dublin Granville Road, it is not consistent with the surrounding single and multi-family developments to the north and east and is inconsistent with the established zoning and development patterns along this portion of Maple Canyon Avenue. The proposed density would set a precedent for higher densities along this stretch of Maple Canyon Avenue, now, therefore:
