The purpose of this legislation is to authorize the Director of Public Utilities to enter into a service agreement with The Safety Company dba MTech Company for Telemonitoring Equipment Parts and Repairs. The agreement for this service will be established in accordance with relevant provisions of City Code Chapter 329 relating to Sole Source procurement. Cues Incorporated is the manufacturer of the equipment and has partnered with The Safety Company dba MTech Company as the sole authorized supplier/dealership in the State of Ohio for CUES parts, software support and repairs.

The Sewer Maintenance Operations Center utilizes telemonitoring trucks in the SLIRP (Sewer Line Inspection and Rehabilitation Program) section. The equipment is used to show video of the various sanitary and stormwater lines to determine maintenance needs and to inspect the lines. It is expected that repairs will need to be made on a regular basis. The TV trucks are manufactured by Cues Incorporated and the parts and service can only be provided by the authorized supplier/dealership on behalf of the manufacturing company. An informal quote was received from MTech Company detailing the per hour rate for repair labor, mechanical and electrical at both the MTech Company Cleveland shop and the Cues Factory location. See attached letter. The service will be in effect for one (1) year to and including May 31, 2017.
