Delaware County Soil and Water Conservation District has partnered with Knox, Licking, and Morrow Soil & Water Conservation Districts, with promotional assistance from the Upper Big Walnut Creek Water Quality Partnership, to apply for a grant through the USDA for funding to improve water quality and soil quality in the Scioto River watershed. The Department of Public Utilities, Division of Water, has been offered an opportunity to participate in this grant-funded project through the contribution of a total of \$187,000.00 in match for the grant. The cost break-down is as follows: \$20,000.00 (cash) per year for 5 years and \$87,000.00 in In-Kind match will be provided through the Watershed Master Plan process. The original contract (DL022268) was for year one of the cash portion of the grant matching. Subject to mutual agreement, the grant matching by the ensuing contract, under the same terms and conditions herein can be extended by contract renewal with consecutive, annual contracts for a period of four years. This ordinance provides for the fourth (4) and final of four (4) possible contract extensions/renewals.
