This legislation authorizes the Director of Public Utilities to execute Contract Modification No. 8 to the Organic Waste Processing Agreement between the City of Columbus (City), Kurtz Brothers Central Ohio, LLC (Kurtz) and the Solid Waste Authority of Central Ohio (SWACO).

This Modification No. 8 will fund the following provisions and services to this contract. Modification No. 8 will be in effect from December 1, 2013 to and including November 30, 2014.

A. Trucked Waste Disposal Facility:

Grant Kurtz Brothers Central Ohio, LLC the authority to design their facility to include the process of accepting trucked waste in addition to the fats, oils and grease (FOG) that they will be accepting under the terms of the original agreement. In so much as Kurtz was constructing a similar facility to the one operated by the Division of Sewerage and Drainage (DOSD) in the vicinity of Berliner Park, both parties agreed that it would be in their best interests to share a facility to accommodate both efforts thereby reducing costs and a duplication of services. This facility will be operated and maintained by Kurtz under the terms of this agreement.

B. Incinerator Ash Beneficial Reuse Program:

Grant Kurtz Brothers Central Ohio, LLC the authority to continue a beneficial reuse program for wastewater treatment incinerator ash that is generated by the City's two wastewater treatment plants. Ash has been historically stored at the treatment plants in lagoons and land filled at considerable expense to DOSD. This program will allow for up to 5,000 tons of wastewater treatment incinerator ash a year to be removed and adapted for beneficial reuse under this provision, at a rate of \$30.51 per ton, which is less than the current land filling cost to the City.

C. Fixed Rate Sewerage Sludge Processing Term:

Continue a fixed rate fee of \$33.50 per wet ton of sewerage sludge processing for the duration of this contract (10 + 5 year extension). This contract authorizes the transfer to the Organic Waste Recovery and Reuse System of up to 25,000 wet tons of sewerage sludge per year at this rate. This contract will provide DOSD with an additional beneficial alternative use option for sewerage sludge.

1. Amount of additional funds: The amount of additional funds needed for this contract is \$990,050.00. The original contract was established without funding. The total City cost of the original contract and all modifications is \$3,800,675.00. This modification represents an extension of the contract period of December 1, 2013 through and including November 30, 2014.
2. Reason need for additional funds was not foreseen: The need for additional funds was foreseen, an extension is provided in the original contract. This legislation is to cover the funds budgeted for December 1, 2013 through and including November 30, 2014 for the Division of Sewerage and Drainage.
3. Reason other procurement processes not used: This contract is for ten (10) years with a 5-year extension provided in the original contract. No lower pricing/more attractive terms and conditions are anticipated at this time.
4. How cost was determined: The cost, terms and conditions are in accordance with the original agreement as modified.

FISCAL IMPACT: \$990,050.00 is needed and budgeted for this modification.

\$686,958.94 has been spent thru 8/27/2013
