BACKGROUND: This ordinance authorizes the Public Utilities Director to enter into a planned modification and increase of a professional engineering services contract, with R.D. Zande & Associates, Inc., for construction administration services for the Taylor Road 2MG Water Storage Tank project. Formal bids for the construction of this tank are scheduled to open February 21, 2007. Construction Administration services will begin at the start of construction.

1. Amount of additional funds to be expended: \$83,500.00

Original Contract Amount: \$93,000.00

Amount of original contract and this modification: \$176,500.00

2. Reasons additional goods/services could not be foreseen:

Construction administration was foreseen and included and evaluated as part of the original scope of the project and proposal.

3. Reason other procurement processes are not used:

Since R.D. Zande & Associates, Inc. prepared the plans and specifications for this water storage tank, it would not be feasible to contract with another company, as they would already be familiar with the project and could therefore provide excellent service on the requested task. Additionally, Ordinance Number 1372-2005 specifically stated R.D. Zande & Associates, Inc. would be requested for construction administration services.

4. How cost of modification was determined:

The consultant originally quoted \$72,000.00 for these services, but this estimate was given before the tank was designed. Additionally, pricing was based on 2005 dollar figures.
