**Background**

The original project consisted of the construction of a boathouse on the western side of Griggs Reservoir in Duranceau Park. The 22,000 s.f. facility is designed with six boat bays on the lower level, lockers, showers, meeting room, training/event space, offices, mechanical, training and laundry rooms on the upper level. It will be used for youth, student and adult rowing. Columbus Recreation and Parks Department will house outdoor education boats in the boathouse and lease space to The Greater Columbus Rowing Association and The Ohio State University Athletic Office.

Robertson Construction Services is requesting an increase from the original EL009793 contract of \$4,078,335.18 due to a change in unforeseen site conditions. There was an unexpected amount of rock excavation necessary in order to properly build the foundation for the new building.
