Council Variance Amendment: CV91-0046C

APPLICANT: City of Columbus; c/o Laura MacGregor Comek & Larry James, Attorneys; Crabbe, Brown & James LLP; 500 South Front Street, Suite 1200; Columbus, OH 43215.

PROPOSED USE: Theater and accessory assembly, retail and office commercial uses.

NEAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The applicant is requesting a Council variance to allow expansion

and renovation of the Lincoln Theater, continuing the theater and various assembly, retail, and office commercial uses in the R-2F, Residential District. The site was rezoned from the C-4, Commercial District to the R-2F, Residential District as part of the 1974 Model Cities rezoning. Ordinance #1242-93, passed May 24, 1993 (CV91-0046B) permits the uses proposed by this ordinance, and established limitations on the allowable area for each use and off-site parking requirements. This variance is required to allow the proposed expansion of the theater onto the R-2F lot to the south, and will add variances for building height, R-2F Residential District yard and area standards, and Urban Commercial overlay standards as they apply to parking and building design requirements. The requested variance will also change the size limitations of the permitted uses, and will reduce the previously approved off-site parking requirements. This council variance amendment is intended to preserve all prior approvals for use and development of the site, while also accommodating the theatre's expansion and renovation, returning the theatre to its intended and former use as a focal point for the community. As part of the approval for the theater expansion, Ordinance #822-94 is also being amended (Ordinance #0910-2007, Z93-052B), to reconfigure the parking lot and to allow expansion of the Lincoln Theater onto the eastern portion of the site in the CPD, Commercial Planned Development District. To simplify any future development projects for the theater site and adjacent parking lot, both ordinances are conditioned on a follow-up rezoning application to one CPD, Commercial Planned Development District to be filed for the sites within one year of the effective date of this legislation. The site lies within the *Near East Area Plan* (2005), which denotes East Long Street as a Commercial Node District and recommends higher density residential and mixed-use development for this corridor. The site also lies within the planning area of the *King-Lincoln District Plan* (2002), which encourages an Arts and Entertainment Center and shared parking district along Long Street west of Monroe Avenue. No recommendation is being made regarding the hardship aspects of this application.

To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential district; 3332.18, Basis of computing area; 3332.25, Maximum side yard required; 3332.26, Minimum side yard permitted; 3332.27, Rear yard; 3332.29, Height district; 3342.28, Minimum number of parking spaces required; and 3372.611, Design standards; of the Columbus City Code for the property located at **771 EAST LONG STREET (43203)**, to permit a theater and accessory assembly, retail and office commercial uses with reduced development standards in the R-2F, Residential District and to repeal Ordinance #1242-93, passed May 24, 1993 (Council Variance # CV91-0046C).

WHEREAS, by application # CV91-0046C, the owner of the property at **771 EAST LONG STREET (43203)**, is requesting a Variance to permit a theater and accessory assembly, retail and office commercial uses with reduced development standards in the R-2F, Residential District; and

WHEREAS, Section 3332.037, R-2F, Residential district, prohibits commercial uses, while the applicant proposes to allow renovation and expansion of a theater and accessory assembly, retail and office commercial uses with reduced development standards; and

WHEREAS, Section 3332.18, Basis of computing area, requires that no dwelling shall occupy alone or together with any other building greater than fifty (50) percent of the lot area, while the applicant proposes no dwelling and sixty-six (66) percent lot coverage for the expanded building footprint as shown on the site plan; and

WHEREAS, Section 3332.25, Maximum side yard required, requires the sum of the widths of each side yard to equal twenty (20) percent of the lot width not to exceed sixteen (16) feet, while the applicant proposes a maximum side yard of 3.67 feet to accommodate the theater expansion; and

WHEREAS, Section 3332.26, Minimum side yard permitted, requires a side yard of no less than five (5) feet, while the applicant proposes a minimum side yard of 3.67 feet along the east property line to accommodate the theater expansion; and

WHEREAS, Section 3332.27, Rear yard, requires a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes less than a twenty-five (25) percent rear yard to accommodate the theater expansion as shown on the site plan; and

WHEREAS, Section 3332.29, Height district, requires that no building or structure shall exceed a height of thirty-five (35) feet, while the applicant proposes to maintain the existing building height of seventy (70) feet; and

WHEREAS, Section 3342.28, Minimum number of parking spaces required, requires a maximum requirement of four-hundred fifty-two (452) spaces for the theater and accessory assembly, retail and office commercial uses, while the applicant proposes to maintain zero (0) parking spaces for the existing building; and

WHEREAS, Section 3372.611(B), Design standards, requires that a building frontage that exceeds a width of fifty (50) feet shall

include vertical piers or other vertical visual elements to break the plane of the building frontage spaced at intervals of fifteen (15) to thirty-five (35) feet, while the applicant proposes no vertical piers or visual elements along the frontage of the existing building; and

WHEREAS, this variance will allow the renovation and expansion of a theater and accessory assembly, retail and office commercial uses with reduced development standards in the R-2F, Residential District; and

WHEREAS, the Near East Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the building has been used for the uses proposed, the site was formerly zoned in a commercial district, and the proposed uses are consistent with recommendations of the *Near East Area Plan (2005)* and the *King-Lincoln District Plan (2002)*, which encourages mixed-use commercial development and an Arts and Entertainment Center and shared parking district along Long Street west of Monroe Avenue. This variance is required to allow the proposed expansion of the theater onto the R-2F lot to the south, and will add variances for building height, R-2F Residential District yard and area standards, and Urban Commercial overlay standards as they apply to parking and building design requirements. The requested variance will also change the size limitations of the permitted uses, and will reduce the previously approved off-site parking requirements. This council variance amendment is intended to preserve all prior approvals for use and development of the site, while also accommodating the theatre's expansion and renovation, returning the theatre to its intended and former use as a focal point for the community. As part of the approval for the theater expansion, Ordinance #822-94 is also being amended (Ordinance #0910-2007, Z93-052B), to reconfigure the parking lot and to allow expansion of the Lincoln Theater onto the eastern portion of the site in the CPD, Commercial Planned Development District. To simplify any future development projects for the theater site and adjacent parking lot, both ordinances are conditioned on a follow-up rezoning application to one CPD, Commercial Planned Development District to be filed for the sites within one year of the effective date of this legislation; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **771 EAST LONG STREET (43203)**, in using said property as desired and; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:
