The Implementing Enhanced HIV Prevention and Surveillance for Health Departments to End the HIV Epidemic in Ohio Grant Program enables Columbus Public Health (CPH) to prevent new HIV infections by focusing on four (4) pillars: Treat , Diagnose, Prevent, and Respond. This grant specifically focuses on the Diagnose and Prevent pillars. Columbus Public Health (CPH) embraces the Center for Disease Control and Prevention’s mantra toward Ending the HIV Epidemic, which is to create “Disruptive Innovation”. In conjunction with community leaders and stakeholders, a strategic plan to reduce the number of people living with HIV by 75% in 5 years and 90% in 10 years is the goal of this program.

Emergency action is requested to allow the financial transaction to be posted in the City's accounting system as soon as possible. FISCAL IMPACT: The Implementing Enhanced HIV Prevention and Surveillance for Health Departments to End the HIV Epidemic in Ohio Grant Program is entirely funded by the Ohio Department of Health and does not generate revenue

or require a City Match. (\$203,275.00)
