Council Variance Application CV23-124

APPLICANT: HWP, INC; c/o Kelton D. Waller, Agent; 32 North 17th Street; Columbus, OH 43203

PROPOSED USE: Mixed-use development.

LIVINGSTON AVENUE AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site is currently developed with a 1,000 square foot commercial building in the R-3, Residential District. The applicant proposes to expand the existing commercial structure resulting in a total of 2,000 square feet of eating and drinking establishment space on the first floor, with one dwelling unit each on the second and third floors (two total units). A Council variance is required because the R-3 district does not allow commercial uses and only allows one single-unit dwelling as a principal residential use. Variances to lot width, lot area, building lines, minimum required side yards, and a parking space reduction from 31 required to three provided spaces are included in this request. The site is located with the planning area of the *Near Southside Plan (2011)*, which recommends "Medium Density Mixed Residential" land uses for this location, and includes adoption of *Columbus Citywide Planning Policies (C2P2) Design Guidelines (2018)*. While the proposed use is not entirely consistent with the Plan's recommendation, staff notes the proposed building expansion is consistent with C2P2 Design Guidelines stating

that building additions should be based on nearby structures in terms of height, setback, width and overall size. Additionally, the parking variance is supported with additional bike racks being provided on-site.

To grant a Variance from the provisions of Sections 3332.035, R-3 residential district; 3312.49, Required parking; 3321.05(B)(1), Vision clearance; 3332.05, Area district lot width requirements; 3332.13, R-3 area district requirements; 3332.21, Building lines; and 3332.26, Minimum side yard permitted, of the Columbus City Codes; for the property located at **678 MILLER AVE. (43205)**, to allow a mixed-use development with reduced development standards in the R-3, Residential District (Council Variance #CV23-124).

WHEREAS, by application #CV23-124, the owner of property at **678 MILLER AVE. (43205)**, is requesting a Council variance to allow a mixed-use development with reduced development standards in the R-3, Residential District; and

WHEREAS, Section 3332.035, R-3 residential district, prohibits commercial uses and only allows single-unit dwellings as principal residential uses, while the applicant proposes to expand the existing building to provide a total of 2,000 square feet of eating and drinking establishment space with two dwellings units above; and

WHEREAS, Section 3312.49, Required parking, requires one parking space per 75 square feet of eating and drinking establishment space and two parking spaces per dwelling unit, or a total of 27 spaces for 2,000 square feet of eating and drinking establishment space, and a total of four spaces for two dwelling units, while the applicant proposes a total of three parking spaces; and

WHEREAS, Section 3321.05(B)(1), Vision clearance, requires clear vision triangles of 10 feet at the intersections of streets and alleys, while the applicant proposes a 9.83 foot vision clearance at the intersection of Miller Avenue and the alley along the southern property line; and

WHEREAS, Section 3332.05(A)(4), Area district lot width requirements, requires a minimum lot width of 50 feet, while the applicant proposes to maintain the existing lot width of 29 feet; and

WHEREAS, Section 3332.13, R-3 area district requirements, requires that a single-unit dwelling or other principal building shall be situated on a lot of not less than 5,000 square feet in area, while the applicant proposes a mixed-use development on a reduced lot area of 2,523± square feet in area, pursuant to lot area calculation in 3332.18(C); and

WHEREAS, Section 3332.21, Building lines, requires the building line to be 15 feet, while the applicant maintains a reduced building line of zero feet; and

WHEREAS, Section 3332.26(F), Minimum side yard permitted, requires a side yard of no less than one-sixth of the height of the building for buildings over two and one-half stories in height, or 5.33 feet for a building with a height of 32.13 feet, while the applicant proposes to maintain no side yard along the northern property line; and

WHEREAS, the Livingston Avenue Area Commission recommends approval; and

WHEREAS, the City Departments recommend approval because the proposed building addition is compatible with the design characteristics of nearby structures and because there will be additional bike racks on-site, as well as providing additional housing consistent with the City's objectives; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to the adjacent property,

unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owner of the property located at **678 MILLER AVE. (43205)**, in using said property as desired; now, therefore:
