Background: This ordinance authorizes the Director of the Recreation and Parks Department to enter into contract with Greenscapes Landscape Co., Inc. for the installation of 385 street trees throughout the City of Columbus.

The Urban Infrastructure Recovery Fund (UIRF) was established in 1992 to address capital improvement needs in central city neighborhoods. The Department of Development has a funding plan in place to replace street trees in eleven of the NCR (Neighborhood Commercial Revitalization) areas throughout the City of Columbus over the next 5 years. The fall 2016 street tree planting adds street trees to 3 of the UIRF districts, Harrison West, Victorian Village and North Linden. The new plantings will represent a diverse species of trees selected specifically for each planting location. It takes into consideration the specific site restrictions that each location has in an effort to maximize the Urban Tree Canopy and reduce storm water run-off in the area while not interfering with nearby utilities or structures. The North Linden neighborhood planting is a direct request by the community leaders intended to add new trees to their aging urban tree canopy. The planting in the Harrison West and Victorian Village UIRF districts is a response to public input asking for trees to be planted to replace the numerous trees that needed to be removed due to damage from the derecho that impacted Central Ohio in late-June 2012.

The costs for this project will be \$139,633.00 with a contingency of \$14,000.00 for a total of \$153,633.00.

Bids were advertised through Vendor Services, in accordance with City Code Section 329, on August 8, 2016 and received by the Recreation and Parks Department on August 25, 2016. Bids were received from the following companies:

<u>Company</u>	<u>Amount</u>
Greenscapes (MAJ)	\$139,633.00

Emergency Justification: An emergency exists in the usual daily operations of the Recreation and Parks Department as tree planting has specific periods of time when it is most beneficial to plant trees. Traditional 30 day legislation would result in an insufficient period of time to schedule the work, order the trees, perform the stump removal and plant the trees before ideal planting conditions are lost to cooler temperatures in the coming months.

Benefits to the Public: These plantings will increase the Urban Tree Canopy which reduces storm water runoff, reduces utility costs to nearby homes and businesses, and reduces air pollution.

Area(s) Affected: Citywide (99)

Master Plan Relation: This project supports the departments Master Plan by planting trees intended to both replace and add to the City of Columbus' urban tree canopy. It will be adding to the total overall canopy levels and is helping to replace trees lost due to the Emerald Ash Borer and other causes of tree mortality.

Fiscal Impact: \$153,633.00 is budgeted and available in the Recreation and Parks Voted Bond Fund 7702 to meet the financial obligations of this contract.
