1. **BACKGROUND:**

A. **Need.** This legislation authorizes the Director of Public Utilities to modify the agreement with Malcolm Pirnie, Inc., for Professional Program Management Services for the Division of Sewerage and Drainage. The work in that program is a very substantial group of sewer capital improvements projects (CIPs), both collections systems and treatment works improvements, which have been agreed to by the City and Ohio EPA in order to conform to the requirements of the City's consent orders. The actual emplacement of the CIPs will be by construction contract; the professional program management contract is providing: program planning, scheduling, budgeting, and status reporting; construction management; design management; some design of critical projects; special services such as Value Engineering, and other services for this very large, important program, as directed by the City.

The initial authorization of, and appropriation of monies to, this contract was accomplished by Ordinance No. 0731-2006, passed May 8, 2006. The Malcolm Pirnie, Inc. modification amount requested under this ordinance is \$8,395,600.00. The contract total including this modification is \$85,113,625.00. This contract was always planned to be funded incrementally, via approximately annual appropriations. The current appropriation will be exhausted at the end of November, 2010, and this modification provides monies to continue this important work through scheduled completion in April, 2012.

1.1. Amount of additional funds to be expended: \$8,395,600.00

Original Contract	\$ 7,000,000.00
Modification No. 1	\$12,000,000.00
Modification No. 2	\$14,500,000.00
Modification No. 3	\$16,882,125.00
Modification No. 4	\$15,335,900.00
Modification No. 5	\$11,000,000.00
<u>Proposed Modification No. 6</u>	<u>\$ 8,395,600.00</u>
CURRENT PROPOSED TOTAL	\$85,113,625.00

1.2. Reasons additional goods/services could not be foreseen:

This Contract Modification No. 6 was planned and so stated in the original contract's legislation. It is a planned continuation of the services originally included within the existing contract's scope of service.

1.3. Reason other procurement processes are not used:

The funding provided by this contract modification is for continuation of the existing work of the contract. This work was planned for and anticipated within the original procurement, it is not reasonable or cost effective to undertake a new procurement to acquire these services.

1.4. How cost of modification was determined:

The cost of this contract modification is consistent with the direct labor, overhead, and profit rates established within the original proposal. The estimate of the quantity of labor required to complete the remaining scope of services is within the anticipated level of funding originally forecast.
