Rezoning Application Z09-041

APPLICANT: Southland Self Storage LLC; c/o David L. Hodge, Atty.; Smith and Hale; 37 West Broad Street, Suite 725; Columbus, OH 43215.

PROPOSED USE: Self-storage.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (3-1-1) on March 11, 2010.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The proposed L-M, Limited Manufacturing District would allow C-2 uses and self-storage. While the request is not consistent with *The West Columbus Interim Development Concept: 1991*, Staff recognizes that the site, which has been zoned in the C-2, Commercial District for 36 years, has not developed with either office or residential uses. Furthermore, although self-storage is not the optimal use of the site, it is a low intensity nonresidential use. This use is compatible with the adjacent residences due to the enclosed nature of the storage facility and the orientation of the storage doors

toward the interior of the site. The proposed treatment of the perimeter, the buffering, lighting controls, building material restrictions, the screening of mechanicals provide compatibility with the adjacent residences. Staff finds that the proposed self-storage use is compatible with the development in the area given the development standards included in the text and the site plan.

To rezone **2183 HILLIARD-ROME ROAD (43026)**, being 4.0± acres located on the west side of Hilliard-Rome Road, 116± feet south of Reebok Drive, **From:** C-2, Commercial District, **To:** L-M, Limited Manufacturing District. (Rezoning # Z09-041)

WHEREAS, application #Z09-041 is on file with the Building Services Division of the Department of Development requesting rezoning of 4.0± acres from: C-2, Commercial District, to L-M, Limited Manufacturing District; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the Columbus Public Health Healthy Places program reviews applications for active living features and recognizes this development has centrally located bike racks for employees that ride their bike by choice or because of limited alternatives; and

WHEREAS, the City Departments recommend approval of said zoning change because this use is compatible with the adjacent residences due to the enclosed nature of the storage facility and the orientation of the storage doors toward the interior of the site. The proposed treatment of the perimeter, the buffering, lighting controls, building material restrictions, the screening of mechanicals provide compatibility with the adjacent residences. Staff finds that the proposed self-storage use is compatible with the development in the area given the development standards included in the text and the site plan, now, therefore:
