Council Variance Application: CV06-059

APPLICANT: New Par, d/b/a Verizon Wireless c/o David Pike, Atty; 1578 Highway 44 East, Suite 6; Shepherdsville, KY 40165-0369.

PROPOSED USE: Monopole telecommunication antenna.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The applicant seeks a variance to allow a 150 foot tall monopole telecommunications antenna in the AR-1, Apartment Residential District with lighting on it for an existing tennis court. The proposed tower would be placed 158-feet from the AR-1, Apartment Residential District to the north while a 300 foot separation would be required if this were located in a zoning district that permits such antennas. The proposed antenna will be able to accommodate a total of three carriers, while the Zoning Code would normally require only two carriers to be accommodated. The site is located within Area 27 of the *Northland Plan Volume I* (2001). Staff supports the proposal because this is on the site of a high school campus which contains similar tall light standards. There are no height restrictions on light standards so the high school could erect a 150 monopole for lights with just a building permit. We feel the addition of the proposed monopole telecommunications antenna which also accommodates light for a tennis court is a good solution that in effect camouflages the monopole by placing it amongst similar tall lighting structures. It is the hope that solutions such as this lessen the need for the installation of telecommunication antennas in

neighborhoods developed with housing.

To grant a Variance from the provisions of Section 3333.02, AR-1, Apartment Residential District Use, of the Columbus City Codes for the property located at **4324 KARL ROAD (43224)**, to permit a monopole telecommunication antenna with a reduced setback in the AR - 1, Apartment Residential District. (Council Variance #CV06-059).

WHEREAS, by application #CV06-059, the owner of property at **4324 KARL ROAD (43224)**, is requesting a Variance to permit a monopole telecommunication antenna with a reduced setback in the AR-1, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-1, Apartment Residential District Use, does not permit monopole telecommunication antennas to be located within said District, while the applicant proposes to locate a monopole telecommunication antenna on the property of a high school with the secondary purpose of housing new lighting for existing tennis courts; and

WHEREAS, City Departments recommend approval because this is on the site of a high school campus which contains similar tall light standards. There are no height restrictions on light standards so the high school could erect a 150 monopole for lights with just a building permit. We feel the addition of the proposed monopole telecommunications antenna which also accomodates light for a tennis court is a good solution that in effect camouflages the monopole by placing it amongst similar tall lighting structures. It is the hope that solutions such as this lessen the need for the installation of telecommunication antennas in neighborhoods developed with housing.; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public roads, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **4324 KARL ROAD (43224)**, in using said property as desired and; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Section 3333.02, AR-1, Apartment Residential District Use, of the Columbus City Codes for the property located at **4324 KARL ROAD (43224)**, insofar as said sections prohibit a Monopole Telecommunications Antennas, said property being more particularly described as follows:
