This is a multiyear contract that will be modified as required to provide construction administration/inspection services for construction projects that bid during the three year (2020-2022) timeframe.

1.4. How cost of modification was determined:

The cost was determined by negotiations between Anser Advisory dba H.R. Gray & Associates and the Divisions of Sewerage and Drainage and Water.

2.0 ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:

Division of Sewerage and Drainage projects include rehabilitation of existing sewers, repair to existing sewers, construction of new sewers, and construction of green infrastructure. The majority of the projects will reduce inflow and infiltration to the City’s sanitary sewer system thus mitigating sanitary sewer overflows to basements and waterways. Other projects provide improvement to existing storm infrastructure to mitigate drainage/flooding issues.

Division of Water projects include replacement or rehabilitation of water lines that have a high break frequency. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss.

Other projects provide improvements to elevated water storage tanks and booster pump stations that are part of the water distribution system.

The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

3.0 FUTURE MODIFICATION(S): The Department anticipates requesting additional future modifications to this contract as new construction projects begin during 2022.

4.0. CONTRACT COMPLIANCE INFO: 31-1050479 | Exp. 6/21/23 | MAJ | DAX #4640
