### 1. BACKGROUND:

This ordinance authorizes the Director of Public Service to modify and increase a services contract with Solutient Technologies for the Department of Public Service Refuse Radiation Alarm Remediation contract. The amount of the modification is \$50,000.00. This is the fourth modification to the original contract.

The City of Columbus is contractually obligated to use the Solid Waste Authority of Central Ohio (SWACO) landfill. On January 31, 2013, SWACO activated radiation monitors at the landfill and transfer stations. All vehicles entering these locations with the intent to unload trash pass through the monitors, and if a vehicle trips an alarm, it is not allowed to unload. The vehicle owner is required to engage a company to identify and remove the radioactive material, perform remediation work on the vehicle, and properly dispose of the radiated material.

The Department of Public Service issued a bid for remediation service through the Vendor Services web site in January of 2013. Solutient Technologies received the contract for one year with four one-year renewals. This ordinance authorizes the fourth of four possible renewals of the contract with Solutient Technologies for \$50,000.00, extending the contract through January 31, 2017.

### 2. CONTRACT COMPLIANCE

The contract compliance number for Solutient Technologies is 522110086 and expires 09/25/2016.

### **3. FISCAL IMPACT**

This 2016 expense is budgeted within the Special Income Tax Fund, Purpose - Tipping Fee - Refuse Disposal. Ordinance 2889-2015 included appropriation of these funds.

### **4. EMERGENCY JUSTIFICATION**

The department requests emergency designation to allow for continuation of as-needed radiation remediation services for Division of Refuse Collection vehicles, so trash can be unloaded and trucks are not removed from service for long periods of time. The current contract modification expired prior to the approval of ordinance 2889-2015 on February 10, 2016, which does not leave enough time to incorporate a 30-Day legislative process for approval, and to avoid a potential service disruption.
