Background:

The Emerald Ash Borer (EAB) is an exotic boring insect from Southeast Asia, first identified in Michigan in 2002, that infests and eventually kills trees of the *Fraxinus* genus, more commonly known as ash trees. Once an ash tree is dead, its structural integrity diminishes quickly and it is not uncommon for large limbs to fail on both high wind and calm days without warning. First identified locally in 2003, Columbus is beginning its 10th year of the EAB infestation. It is estimated that approximately 30,000 ash trees of various sizes exist on City of Columbus property; this includes trees along streets, in parks, golf courses and on several municipal campuses.

In 2011, City leaders, in coordination with the City Forestry Division of The Recreation and Parks Department committed to an organized project approach to address the EAB crisis. To date, 12,026 ash trees have been removed city wide. That is 40% of the estimated public ash tree population. Of the 12,026 trees, 5,296 trees were removed by Forestry Staff and 6,730 trees were removed by contractors. The City has spent \$4,000,000 to date on various ash tree removal projects as a result of the Emerald Ash Borer with an estimated \$4,600,000 in future projects planned. This \$1,500,000 ordinance is part of the \$4,600,000 total figure.

This ordinance will allow immediate funding for administration, services, supplies, tree replacements, and to remove Emerald Ash Borer (EAB) infested and damaged trees. The supplies, services, and equipment needs that will be paid for as part of this funding request will include but are not limited to: tree removal contracts, stump removal contracts, tree replacement contracts, Sprint cellular service contracts and supplies, office supplies, uniforms, computer supplies, EAB related forestry supplies, safety equipment, and City of Columbus Forestry employee staff time for the EAB project. All supply, service, and equipment needs related to the Emerald Ash Borer response have been established as one overall capital improvement approved project. Each direct purchase order, purchase order, or universal term contract will be written separately based on all City of Columbus Codes that apply.

This ordinance will establish an Auditor's Certificate and authorize the expenditures for EAB management, park improvements, and the purchase of needed equipment and supplies through the City of Columbus Purchasing Office. All bids will be obtained and contracts awarded using City Code 329, however this legislation will set up all the required funding to enter into contracts with the vendors on an as-needed basis. In order to continue the removal of the infested and hazardous trees immediately, we are requesting the authorization of \$1,500,000.00 in voted bond funds and the authorization for the Director of Recreation and Parks and the Director of Finance and Management to enter into various contracts relating to the EAB management process and equipment needs. All equipment, supplies, and services will be bid through the City of Columbus Purchasing System.

Emergency Justification:

In order to have the tree replacements available for fall 2014 plantings, and for the continuation of current removal process, it is necessary to authorize this expenditure to have the funding and approval complete when the bidding has been finalized. Competitive bids will be solicited using City Code 329 or obtained through any current universal term contract for all Emerald Ash Borer related expenditures. Emergency legislation is required to continue with the removal of hazardous and infested trees immediately.

Fiscal Impact:

\$1,500,000.00 is required and budgeted in the Recreation and Parks Voted Bond Fund 702 to meet the financial obligations of these various expenditures. This ordinance is contingent upon the 2014 bond sale.
