1. BACKGROUND

This ordinance authorizes the Director of Public Service to modify and increase an existing contract with The Righter Company for the Bridge Rehabilitation - Annual Citywide Contract 2019 project in an amount up to \$141,942.25 and to provide for construction administration and inspection services for the project in the amount of up to \$26,000.00.

Ordinance 0154-2020 authorized the Director of Public Service to enter into a contract with The Righter Company for the implementation of the Bridge Rehabilitation - Annual Citywide Contract 2019 project and to provide for construction administration and inspection services. This contract provided for the rehabilitation of several bridges within the City of Columbus. Types of work vary by bridge, but include and are not limited to, concrete patching, waterproofing, lighting repairs, placement of scour countermeasures, channel cleanout, deck overlay, asphalt repairs, clearing and grubbing, bearing rehabilitation, and bridge painting.

The original contract amount, no inspection:	\$2,187,663.33	(PO220718, Ord. 0154-2020)
The total of Modification No. 1, no inspection:	<u>\$167,942.25</u>	(This Ordinance)
The contract amount including all modifications:	\$2,355,605.58	

Searches in the System for Award Management (Federal) and the Findings for Recovery list (State) produced no findings against The Righter Company.

2. UNPLANNED MODIFICATION

The Bridge Rehabilitation - Annual Citywide Contract 2019 allows for the addition or subtraction of bridges and bridge work as the Department of Public Service deems necessary to accomplish the rehabilitation of the City's bridges. While a work crew was performing a water main repair near the Livingston Avenue bridge on behalf of the Department of Public

Utilities, the crew caused damage to the bridge which forced the closure of the bridge. The bridge repair work needed to be completed as soon as possible to re-open the bridge, therefore it was deemed to be more efficient to add the needed work to re-open the bridge to the existing contract than to bid it out. The addition of this emergency work caused planned rehabilitation work to be postponed due to a lack of funds on the contract. This modification will replace the funds used to make the emergency repairs to the Livingston Avenue bridge so all of the rehabilitation work originally planned for the contract can be performed.

3. CONTRACT COMPLIANCE

The contract compliance number for The Righter Company is CC004433 and expires 12/17/21.

4. PRE-QUALIFICATION STATUS

The Righter Company and all proposed trades subcontractors have met City Code requirements with respect to pre-qualification, pursuant to relevant sections of Columbus City Code Chapter 329.

5. FISCAL IMPACT

The Department of Public Utilities is funding this contract modification. An amendment to the 2019 Capital Improvements Budget is needed to provide budget authority for the proper project. A transfer of cash within Fund 6008 (the Water Permanent Improvements Fund) is necessary to align cash with the proper project. The cash being transferred is not appropriated, so it is also necessary to appropriate the funds after they are transferred.

6. EMERGENCY DESIGNATION

Emergency action is requested to prevent delays in the completion of planned rehabilitation work for the bridges on the Bridge Rehabilitation - Annual Citywide Contract 2019 contract, ensuring the safety of the traveling public.

To amend the 2019 Capital Improvements Budget; to authorize a transfer of cash within the Water Permanent Improvements Fund; to appropriate funds within the Water Permanent Improvements Fund; to authorize the Director of Public Service to enter into a contract modification with The Righter Company in connection with the Bridge Rehabilitation - Annual Citywide Contract 2019 project; to provide for construction administration and inspection services for the project; to authorize the expenditure of up to \$167,942.25 within the Water Permanent Improvements Fund for the project; and to declare an emergency.
