1. BACKGROUND: This ordinance authorizes the Director of Public Utilities to modify and increase the Hap Cremean Water Plant Sludge Lagoon Improvements agreement with ms consultants, inc. for the Division of Power and Water, Contract No. 1030.

This current modification (#4) will provide for construction administration / construction inspection services for Part 5 of the project (clean Lagoon 3 and abandon or fill Lagoon 3). The division anticipates that no further modifications will be needed for the final project phase.

1.1 Amount of additional funds to be expended: \$731,912.00

Original Contract Amount: \$ 387,743.74
Modification 1 \$ 850,556.01
Modification 2 \$ 912,025.00
Modification 3 \$ 518,234.00
Modification 4 \$ 731,912.00
Total (Orig. + Mods 1 - 4) \$3,400,470.75

1.2. Reasons additional goods/services could not be foreseen:

The authorizing legislation for Modification #3 (0391-2011) indicated the intent to modify the contract for this future phase of the project.

1.3. Reason other procurement processes are not used:

The consultant team is very familiar with the details of the project, the approving agencies and the bid documents. The

process of selecting and contracting with a new consultant team at this time would further delay the project. The consultant is familiar with the details of the project and will be able to implement the work more efficiently than if another consultant were brought on board mid-way through the project.

1.4. How cost of modification was determined:

The Consultant prepared a detailed estimate of the cost per task for the remaining scope of work, broken down by project phase. City Project management staff reviewed and approved these cost summaries.

2. CONTRACT COMPLIANCE INFO: 34-6546916, expires 4/5/14, Majority

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against ms consultants, inc.

3. ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT: Recent upgrades and modifications to Hap Cremean Water Plant (HCWP) Lagoon #1 and #2 have rendered Lagoon #3 unnecessary to the sludge storage process at HCWP. Lagoon #3 is currently filled with sludge which must be removed. Following the sludge removal, the existing lagoon will be filled with soil rendering it usable for future construction at the facility. Rendering this land usable for future plant upgrades will allow for cost effective improvements to the facility as may be needed to meet currently unknown regulatory requirements. The HCWP is an essential and integral component in the Columbus area water supply and treatment infrastructure. Adequate supply of water is essential to economic growth and development.

As this is a secure site on property owned by DPU no community outreach or input was sought in the development of the project. No significant long term environmental impacts will be due to construction of this project.

4. FISCAL IMPACT: This legislation includes a transfer of funds within the Water Works Enlargement Voted Bonds Fund and an amendment to the 2012 Capital Improvements Budget.

To authorize the Director of Public Utilities to modify and increase the Hap Cremean Water Plant Sludge Lagoon Improvements agreement with ms consultants, inc.; for construction administration / construction inspection services for Part 5 of the project; to authorize a transfer and expenditure up to \$731,912.00 within the Water Works Enlargement Voted Bonds Fund; for the Division of Power and Water; and to amend the 2012 Capital Improvements Budget.
