The Recreation and Parks Department has had problems when non-park users occupy parking spaces and perform illegal activities within or nearby their vehicles. Further, many of the vehicles are parked after hours and are trespassing within the park. The director had issued a policy prohibiting parking in parks or other Recreation and Parks facility parking lots when the parks are closed. This ordinance would provide a modification and extension to the current contract for one additional year, authorized by ordinance 2418-2013, with ProTow to allow ProTow to patrol and remove vehicles left within specified parks after the parks are closed or when a vehicle is not parked in a designated parking spot per park signage.

ProTow will provide and install signage regarding towing.

Proposals were solicited from towing companies in the Columbus, Ohio area. ProTow was selected for this project for various reasons including experience, location, availability, and familiarity and expertise with towing vehicles in the City of Columbus. There will be no cost to the City associated with this contract.
