Council Variance Application: CV24-037

APPLICANT: Michael Panzica; c/o Brandon Kline, Agt.; 10020 Aurora Hudson Rd.; Streetsboro, Ohio 43215.

PROPOSED USE: Mixed-use development.

UNIVERSITY AREA COMMISSION RECOMMENDATION: Disapproval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site consists of six parcels developed with commercial uses in the C-4, Commercial District and is subject to the NC, Neighborhood Commercial Subarea of the University District Zoning Overlay (UDZO). The applicant proposes a mixed-use development containing up to 186 apartment units (10% of dwelling units at 80% AMI and 10% of dwelling units at 100% AMI), 4,000 square feet of retail space, and both surface and structured parking. The requested Council Variance will allow residential uses on the ground floor of a building that are otherwise prohibited. Additional variances to reduce driveway width, parking space width, required parking, vision clearance, FAR standards, and building design standards, and to increase building height are included in this request. The site is located within the planning boundary of the *University District Plan* (2015), which

recommends “Neighborhood Mixed Use,” which is consistent with the proposed uses. Conceptual building elevations were reviewed for consistency with design standards by staff from the Planning Division. Staff finds the proposal to be supportable as it will allow mixed-use development that is consistent with similar infill projects in urban neighborhoods, and with citywide initiatives to provide more housing units in all areas of the city.

To grant a Variance from the provisions of 3356.03, C-4 permitted uses; 3356.05(F)(1)(2), C-4 district development limitations; 3312.09, Aisle; 3312.13, Driveway; 3312.29, Parking space; 3312.49, Required parking; 3321.05(A)(1), Vision clearance; 3325.213, FAR Standards; 3325.223, Building Height Standards; and 3325.241(D), Building Design Standards; of the Columbus City Codes; for the property located at **200 E. 5TH AVE. (43201)**, to allow multi-unit residential development with reduced development standards in the C-4, Commercial District.

WHEREAS, by application #CV24-037, the owner of property at **200 E. 5TH AVE. (43201)**, is requesting a Council variance to allow a multi-unit residential development with reduced development standards in the C-4, Commercial District; and

WHEREAS, Section 3356.03, C-4 permitted uses, allows apartment uses above certain commercial uses, but does not allow first-floor residential uses, while the applicant proposes first-floor residential and accessory uses within a mixed-use development; and

WHEREAS, Section 3356.05(F)(1)(2), C-4 district development limitations, allows dwelling units above a parking garage if specified adjoining commercial uses occupy at least one frontage, while the applicant proposes that the Area B building has no commercial uses, and partial frontage for the Area A building of **60 percent along E. 5th Avenue, and 40 percent along N. 4th Street**, as shown on the site plan; and

WHEREAS, Section 3312.9, Aisle, requires an aisle width of 20 feet for perpendicular (90 degree) parking spaces, while the applicant proposes reduced aisle widths of 18.5 feet at column locations within the structured parking on Area B, with locations to be determined at site compliance review; and

WHEREAS, Section 3312.29, Parking space, requires that a parking space shall be a rectangular area of not less than nine feet wide by 18 feet deep, while the applicant proposes a reduced width of eight feet **and reduced length of 16 feet due to the placement of support columns** within the Area B parking structure; and

WHEREAS, Section 3312.49, Required parking, requires 0.5 parking spaces per bed, and 1 parking space per 500 square feet of retail uses per NC UDZO reductions, or 132 spaces for 186 apartment units with 247 beds and 4,000 square feet of retail space, while the applicant proposes reduced parking for Area A from 71 to 15 spaces, subject to resident use of parking in the parking structure on Area B of 119 spaces, a total of 134 parking spaces provided which meets the overall requirement for both Areas; and

WHEREAS, Section 3321.05(A)(1), Vision clearance, requires clear vision triangles of ten feet at the intersection of a parking lot entrance and the street right-of-way, while the applicant proposes a five foot clear vision triangles at the intersection of the parking lot driveway and East 5th Avenue (Area A) as shown on the site plan; and

WHEREAS, the University Area Commission recommends disapproval, and

WHEREAS, the City Departments recommend approval because the requested variances will permit mixed-use development that is consistent with infill developments in urban neighborhoods, and citywide initiatives to provide more housing units in all areas of the city; and

WHEREAS, this ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed development; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **200 E. 5TH AVE. (43201)**, in using said property as desired; now, therefore:
