This ordinance authorizes the Director of the Recreation and Parks Department to enter into contract with Burgess and Niple, Inc. for improvements to the Olentangy Trail, from Antrim Park to Bethel Road. The costs for these professional services will be \$149,977.41.

Background: This extension project will involve preparing plans for widening the trail, constructing a ramp from the trail to Bethel Road and constructing a path along Bethel Road to Anheuser Busch Park on Olentangy River Road. It will also involve analysis of existing vehicle, bicycle, and pedestrian patterns, improvement alternatives and best practices for safely integrating trail users into a busy commercial area fronted by a high traffic roadway.

The project is intended to be a two stage contract, with the first stage to include Preliminary Engineering. Pending successful completion of the Preliminary Engineering phase, a contract modification will be submitted to City Council for Stage 2, with the scope of design development and final plan submittals.

Requests for Proposals were advertised through Vendor Services, in accordance with City Code Section 329, on September 24, 2015 and received by the Recreation and Parks Department on October 15, 2015. Proposals were received from the following companies:

Benefits to the Public: Safe access for thousands of residents along the Bethel Road/Olentangy River Road corridor by: widening the trail from 9' to 12' to increase capacity; installing guardrail separation along sections where 315 and trail are too close for trail users and motorist safety; constructing a fully compliant connector ramp from the trail to Bethel Road; constructing a shared use path along Bethel Road to Olentangy River Road/Anheuser Busch Park, creating a new, easy access trail head.

Community Input Issues: Involvement with the local constituency of residents and business owners will be conducted early on and will continue throughout the project.

Emergency Justification: An emergency exists in that it is immediately necessary to enter into said contract due to the schedule limits imposed by the federal funding and environmental review requirements.
