This legislation authorizes the Director of the Department of Public Utilities to enter into sub-recipient agreements for the Climate Pollution Reduction Grant with the Mid-Ohio Regional Planning Commission (MORPC), IMPACT Community Action, Power a Clean Future Ohio (PCFO), and The Ohio State University.

ORD 2503-2023 authorized acceptance of the award for the Climate Pollution Reduction Planning Grant, Catalog of Federal Domestic Assistance (CFDA) 66.046. The grant project period is from June 1 2023 through May 31, 2027. The City grant number is G602301.

The Climate Pollution Reduction Planning Grant provides funding under the federal Inflation Reduction Act (IRA) to the City of Columbus to develop regional climate mitigation plans to address greenhouse gas (GHG) emissions and co-pollutants and reduction measures throughout the entire metropolitan area and to conduct meaningful engagement with low- income and disadvantaged communities and coordinate with geographically proximate tribes as appropriate. Three key deliverables will be produced and submitted over the course of the four-year program period: a Priority Climate Action Plan (PCAP), due March 1, 2024; a Comprehensive Climate Action Plan (CCAP), due two years from the date of the award; and a status report, due at the close of the grant period. The City’s inaugural Climate Action Plan published in 2021 will serve as the baseline for the PCAP and CCAP.

## **FISCAL IMPACT**

\$0.00

Acceptance of the \$1,000,000.00 grant award, its appropriation, and expenditure were authorized under ORD 2503-2023. However, the agreements with the respective sub-recipients were not authorized under the same ordinance so this ordinance authorizes those agreements with the funding accepted and appropriated under ORD 2503-2023.

Work with the sub-recipients will support initiatives to benefit residents of Columbus and the surrounding areas. Expected outcomes over the course of the grant include pollution reductions measured in tons of pollution reduced over the lifetime of the measures; tons of pollution reduced annually; and tons of pollution reduced with respect to low-income and disadvantaged communities.

## **EMERGENCY DESIGNATION**

The grant allows work prior to the award dating and back to 6/19/2023 to be included in funding disbursements. This ordinance is being submitted as an emergency in order to (1) expedite payment to sub-recipients; (2) comply with US EPA general terms and conditions for reimbursements; (3) and due to the first deliverable submission deadline in March 2024.
