WATER 2013

BACKGROUND:

This ordinance authorizes an increase in water rates effective January 1, 2013 for the Division of Power and Water and to amend Chapter 1105 of the Columbus City Codes, 1959.

The proposed rate configuration for 2013 recognizes that water and sewer charges disproportionately effect lower income groups and continues the Low Income Discount program that discounts participant's sewer commodity portion of their quarterly bill by 20%.

Requested adjustments in rates result in a typical inside city residential water rate increase of 4%. When a sewer increase of 1% is considered the overall impact on a typical residential customer in the City of Columbus is 2.18% and for an outside city residential customer 2.46%.

The proposed rate structure is necessary to continue to address the new Ohio EPA regulations regarding water supply, water treatment capacity and drinking water quality. This includes current and future water treatment plant expansions, plant water treatment process improvements, water supply and storage improvements and continuous water system rehabilitation and repair projects.

The Sewer and Water Advisory Board met on September 26, 2012 and after reviewing the Department of Public Utilities projected expenditures for 2013, recommends to City Council an increase of 4% in water rates and no increase to the water capacity charges.

FISCAL IMPACT: The Division of Power and Water expects an increase of \$5.1 million in water sales revenue.

To amend Chapter 1105 of the Columbus City Codes, 1959, to enact new water rates for the year beginning January 1, 2013, and to repeal the existing Sections being amended.

WHEREAS, it is necessary to establish new water services rates, effective January 1, 2013, for water service provided by the City of Columbus in order to recover the cost of rendering said water services; and

WHEREAS, the City of Columbus, Department of Public Utilities Division of Power and Water requests a four percent (4%) increase in water rates for 2013 to pay for necessary ongoing operations and needed improvements; and

WHEREAS, the City of Columbus, Department of Public Utilities requests that sewer capacity fees not be increased in fiscal year 2013, and

WHEREAS, City Council recognizes that increased water rates disproportionately impact low income residents. Low income residents already pay a higher percentage of their household income in utility bills, and this percentage would increase with higher rates; and

WHEREAS, City Council finds that continuing a discounted rate for low income users is a recognized method for helping to alleviate the impacts of increased water rates; and

WHEREAS, the Sewer and Water Advisory Board has adopted recommendations that are consistent with the rates established in this legislation; and

WHEREAS, City Council finds that the rates and the low income discount established therein are equitable to all of the City's customers; now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the existing Sections 1105.04 and 1105.041 of the Columbus City Codes, 1959, shall be and are hereby amended effective January 1, 2013 to read as follows:
