### 1. BACKGROUND

This legislation authorizes the Chief Innovation Officer to execute a fifth planned contract modification with Engage Public Affairs in an amount up to \$300,000.00 for the continued provision of communication and outreach services related to the USDOT Smart City Challenge, a collaborative effort by the U.S. Department of Transportation (USDOT) and the Paul G. Allen Family Foundation (Vulcan) seeking to “create a fully integrated, first-of-its kind city that uses data, technology and creativity to shape how people and goods move in the future.”

In August of 2016 USDOT awarded the City of Columbus up to \$40 million in Federal funds (for the USDOT Smart City Challenge project) and Vulcan awarded the City up to \$10 million in private grant funding (for the Vulcan Smart City Challenge project) to assist in implementation of the City's proposal to demonstrate how advanced data and intelligent transportation systems (ITS) technologies and applications can be used to reduce congestion, keep travelers safe, protect the environment, respond to climate change, connect underserved communities, and support economic vitality. Pursuant to the agreement signed with USDOT effective August 30, 2016, the City of Columbus is to contribute \$8,000,000.00 in cost-share monies as part of the USDOT Smart City Challenge project.

Ordinance 1900-2016 authorized the Director of the Department of Public Service to initiate a procurement effort that resulted in the award and execution of a professional services contract with Engage Public Affairs in the amount of \$125,000.00 for the provision of communication and outreach services related to the USDOT Smart City Challenge.

Ordinance 2966-2016 authorized the execution of the first planned contract modification to fund work for the continuation of the communication and outreach efforts (called Task 2) related to the USDOT Smart City Challenge in the amount of \$581,485.00. It was stated in 2966-2016 that additional contract modifications were expected on an annual or task basis throughout the term of the Smart City Challenge project.

Ordinance 1715-2017 authorized the execution of the second planned contract modification to perform communication

and outreach tasks for the USDOT Smart City Project in the amount of \$750,000.00. It was executed to provide additional funding to finish Task 2 and to fund Task 3 work.

Ordinance 0433-2018 authorized the execution of the third planned contract modification to perform communication and outreach tasks for the USDOT Smart City Project in the amount of \$300,000.00. It was stated in 0433-2018 that additional contract modifications were still expected on an annual or task basis throughout the remaining term of the Smart City Challenge project.

Ordinance 3353-2018 authorized the execution of the fourth planned contract modification to perform communication and outreach tasks for the USDOT Smart City Project in the amount of \$860,000.00. It was stated in 3353-2018 that additional contract modifications were expected on an annual or task basis throughout the remaining term of the Smart City Challenge project.

The purpose of this fifth planned contract modification is for the continued provision of communication and outreach services related to the USDOT Smart City Challenge. Additional planned contract modifications are not expected for this contract for the remaining term of the cooperative agreement with the United States Department of Transportation for the Smart City Challenge.
