This legislation will enable the Division of Sewerage and Drainage to renew membership in the Water Environment Federation Research Foundation. The Research Foundation performs research that applies to DOSD operations - sewage sludge incineration, bio-solids reuse, whole effluent toxicity, and combined sewage overflow. Since the USEPA no longer performs this type of important research work, the Foundation fills this void by performing this needed research. Membership will provide direct and timely access

to this information. There are many emerging issues that require research in the near future. The subscription period is for one (1) year, January 2005 to December 2005.

SUPPLIER: Water Environment Research Foundation, a non-profit organization, FID No. 54-1511635.

Fiscal Impact: This contract was budgeted in the amount of \$55,040.00.

\$55,040.00 was spent in 2004

WHEREAS, the Water Environment Federation Research Foundation currently conducts research applicable to the City of Columbus operations including sewage sludge incineration, bio-solids reuse/recycling, whole effluent toxicity, combined sewer overflows and other areas. Membership enables the City to participate in developing future topics and have full access to research in progress; now, therefore,
