1. BACKGROUND

This ordinance authorizes the Assistant Director of Public Service, designated pursuant to Columbus City Code Section 219.02, to modify a professional services contract with Compass Infrastructure Group, LLC to add additional funds for design of the Bridge Rehabilitation - General Engineering (2022) project.

Ordinance 2820-2022 authorized the Director of Public Service to enter into a professional services contract with Compass Infrastructure Group, LLC for the Bridge Rehabilitation - General Engineering (2022) project. This project provides additional resources to perform various engineering and surveying tasks for bridge and retaining wall projects. This ordinance authorizes the Assistant Director of Public Service to modify the contract in the amount of \$125,000.00.

This is an unplanned modification that is in support of the East Franklinton Gravity 2.0 Pedestrian Improvements Project to perform a Lighting System Evaluation for proposed decorative lighting under both the CSX Railroad Bridge and Norfolk Southern Railroad Bridge, which are over State Street between Lucas Street and Starling Street, and, based upon the findings of the evaluation, prepare detailed design plans. It was deemed to be more cost efficient to modify the existing contract than to bid this part of the work.
