The purpose of this legislation is to authorize the Director of Public Utilities to modify and extend the Yard Waste and Log Grinding Service agreement with Ohio Mulch Supply for the Division of Sewerage and Drainage, Compost Facility. Currently the Compost Facility has a Universal Term Contract that provides the purchase of woodchips to be used as bulking agents for composting. This service contract will be an alternative source for bulking agents. The awarded supplier will grind up yard waste and logs that have been delivered to the Compost Facility by various means.

The contract is for one year expiring on January 31, 2006 and includes contract language of extending the contract period for two (2) additional years on a year to year basis. This is the first of two extensions available. The new expiration date will be January 31, 2007.

The Director of Public Utilities opened formal bids on September 29, 2004. Four (4) bids were received. A tabulation of those bids follows:
